

13400

Item Number 9881446

Quick and simple quality control test for determining the acidity/acid content of refrigerator oils to increase the safety and lifetime of cooling systems.

This Acid tester consists of 5 ampoules to make 5 checks of refrigerant oil to verify its acidity.

Testing

1. Open the ampoule
2. Give 12 drops of your oil sample to the test liquid
3. Shake the ampoule briefly
4. Observe the color:

blue → there is no disturbing acidity - the oil is all right

green → limit/pay attention – some corrections may be necessary

yellow → acidity alarm – urgent intervention needed

For Material Safety Data sheet, please contact sales@refco.ch

- Universally suitable for all commonly used refrigerator oils (mineral, AB, POE, PAG, PVE)
- Uses a very small amount of oil sample
- Immediate result (color coded)
- Economic - each package contains 5 testers (ampoules)
- Eco-friendly: only small amounts of test solution needed, biodegradable (xylene-free)
- Low weight and small size at transport
